Annex to the letter dated 1 August 2008 from the Permanent Representatives of France, the United Kingdom of Great Britain and Northern Ireland and the United States of America to the United Nations addressed to the President of the Security Council

Islamic Republic of Iran bank branches and subsidiaries

On March 3, 2008, the United Nations Security Council adopted Resolution 1803 (UNSCR 1803), which called on all states to exercise vigilance over activities of financial institutions in their territories with all banks domiciled in Iran, in particular with Bank Melli and Bank Saderat, and their branches and subsidiaries abroad.

Deficiencies in Iran's anti-money laundering and combating the financing of terrorism (AML/CFT) regime are exacerbated by the Government of Iran's continued attempts to conduct prohibited proliferation related activity and terrorist financing. Through state-owned banks, the Government of Iran disguises its involvement in proliferation and terrorism activities through an array of deceptive practices specifically designed to evade detection. The Central Bank of Iran and Iranian commercial banks have requested that their names be removed from global transactions in order to make it more difficult for intermediary financial institutions to determine the true parties in the transaction. They have also continued to provide financial services to Iranian entities designated by the UN Security Council in its Resolutions 1737 and 1747. It is particularly concerning that the Central Bank of Iran may be facilitating transactions for sanctioned Iranian banks.

UNSCR 1803 calls on member states to exercise vigilance over the activities of financial institutions in their territories with all banks domiciled in Iran, and their branches and subsidiaries abroad. It also welcomed the guidance issued by the Financial Action Task Force (FATF) to assist States in implementing their financial obligations under resolution 1737 (2007).

Against this background, all financial institutions should take into account the risk arising from the deficiencies in Iran's AML/CFT regime, as well as relevant UNSCRs and all applicable international sanctions programs, with regard to any possible transactions with the following Iranian institutions:

Letter dated 25 July 2008 from the Permanent Representative of Costa Rica to the United Nations addressed to the President of the Security Council

As we have stated on previous occasions, Costa Rica attaches particular importance to the proper administration of the United Nations system. My Government is particularly concerned about the irregularities identified in the management of the oil-for-food programme; therefore, now that the final closure of the programme is approaching, we wish the Security Council to have all the safeguards needed to avoid the commission or toleration of fresh irregularities in this phase.

In that context, I would greatly welcome coordination between the President of the Security Council and the Secretary-General with a view to facilitating the closure of the programme without exposing the Organization, including the Council, to new questions about the financial management of the programme. We believe it is important that the report of the Working Group on the oil-for-food programme, which is to be submitted on 31 July 2008 (S/2008/492, attachment), cover the following points, among others:

(a) Measures in place to ensure that there are no conflicts of interest, surcharges or other irregularities in the operations in respect of which it is recommended that outstanding payments be settled;

(b) Verification measures in place for the purpose of authorizing payment to suppliers in cases where there is no confirmation of receipt of goods by the Government of Iraq;

(c) An indication of whether the group of companies that are claiming payment and do not have the relevant confirmation of receipt of goods includes any of those mentioned in the report of the Independent Inquiry Committee.

I should be grateful if you would arrange for this letter to be circulated as a document of the Security Council.
